# WARM WELCOME TO STORMBERG MERINO'S

**13<sup>TH</sup> PRODUCTION SALE**  
**28 FEBRUARY 2025**

**BKB**  
LIVESTOCK &  
AUCTIONEERING

Both Top Tier Merinos and Stormberg Merinos were born out of the principles of group breeding more than 30 years ago. These principles, amongst others, have placed an emphasis on a holistic approach to improve the economic productivity of sheep resulting in hardy adaptable fertile sheep, producing an acceptable amount of medium to fine wool.

Stormberg Merinos, as they are known today, have been running on Buffels Fontein under our management system since 2007. In 2015 we incorporated Top Tier Merinos into our stud flock. These two studs have been amalgamated.

Our selection principles are still based on those original principles of group breeding and with the help of Gary Trethewey, we now match our BLUP figures to hand and eye.

To improve our genetic progress, we have decided to only use our selected two tooth rams once. These two tooth rams are mated to our stud and commercial ewes once and then go through an additional selection just before their second shearing, where only the top performing rams are kept back. These selected rams are then made available for sale the following year as four tooth rams on this sale.

We therefore strongly believe in our selection principles where reproduction, production, adaptability, hardiness, and easy-care traits receive a high priority and by using our selected rams only once, will result in a progressive genetic turn over.
