Ben van der Westhuizen Auction FMD protocol.

On behalf of Mr. van der Westhuizen and Bosberg vet clinic we would like to inform all parties of measures put in place to limit the risk of FMD transmission and the safety of sale animals.

There are to date no FMD reported cases in the Adelaide district of the Eastern Cape and surrounding areas to the property.

Mr. van der Westhuizen has a closed herd and no stock has been introduced to the farm in the last 5 months.

- No stock will be brought to the sale yards from any other properties for the auction.
- All auction animals will be mouthed 7 days prior and again on the day of auction by a registered veterinarian or AHT. Recommendation is to take delivery and do 28 day quarantine on buyers property to ensure safety of buyers own herd.
- Tyre bath and footbaths will be in place for the auction. Disinfecting of vehicles will happen at the Boomgate on the district road and also at the Tyre Bath on property.
- All safety measures will be in place and strictly adhered to.
- Mr van der Westhuizen requests that anyone that currently has FMD on their own properties or have recently potentially come into contact with the disease please to take all necessary measures to ensure safety to the animals and to please consider buying online instead of attending in person.
- All transport vehicles and sale equipment will be thoroughly sanitized.

Thank you for your cooperation

Kind regards

Van der Westhuizen and Bosberg vet clinic

Dr. Keith Ross – D14/11162
