The Science of Healthier Animals™

One of the world's **leading** animal health companies.

We are dedicated to research and development, production and marketing of innovative, high-quality animal health products and data-driven technology solutions.

MSD Animal Health has always been a research-driven company with a focus on **"The Science of Healthier Animals™"**.

We are proud to be the only South African-based company with a **fully accredited Research Unit.**

This **fully accredited** Research Unit, based in Malelane, is responsible for both local and international research and product development. The Research Facility also assist our local farmers with various tests to ensure informed decision-making before treatment for parasites.

Our portfolio includes:

- Vaccines -
- Antiparasitics -
- Anti-infectives -
- Hormones -
- Productivity Enhancers -
- Monitoring -
- Identification -

Sensehub Technology:
- 500 million tags shipped
- 8 million cows connected and analysed

Allflex Livestock Intelligence and Sensehub are digital products for the identification and monitoring with real-time actionable information for the farmer, allowing the farmer more freedom.

Key Account Management team is **strongly supported** by our Technical Veterinarian team to offer African farmers optimal solutions to all their animal health and production needs.
