## STAR COWS CALCULATION

Cows that excel with motherly qualities are rewarded with \*, \*\* or \*\*\* stars on the registration certificate, auction catalogues and [www.simmentaler.org](http://www.simmentaler.org) and are known as eliste of star cows.

The criteria for star cows is as follows:

- 1 Star (\*) – 4 Calvings on record, of which 2 calves must be inspected and 3 must have a wean weight on record.
- 2 Stars (\*\*) – 5 Calvings of which 3 calves must be inspected and 4 must have a wean weight on record.
- 3 Stars (\*\*\*) – 6 and more calvings of which 4 must be inspected and 5 must have a wean weight on record.
- Reproduction: Age at 1<sup>st</sup> calving and Intercalving Period (ICP) must not be higher than the breed average.
- Performance: 200day weight EBV en 200day milk EBV must equal breed average or higher.

These standards are adjusted annually according to the latest breed averages, dead cows also receive stars according to the performance of their progeny. Details of all star cows are available on the web.

## WHAT ARE EBVs?

**ESTIMATED BREEDING VALUES (EBVS)** ARE SELECTION TOOLS THAT WILL HELP YOU ESTIMATE GENETIC DIFFERENCES BETWEEN ANIMALS FOR A WIDE RANGE OF ECONOMICALLY IMPORTANT TRAITS.

1. **Calving ease direct (%):** The ability of an animals calves to be delivered without assistance out of heifers at 24 months of age. (Higher % more favourable)
2. **Calving ease maternal (%):** The ability of an animal's daughters to calve without assistance as heifers at 24 months of age. (Higher % more favourable)
3. **Birth weight (kg):** Estimates of genetic differences in calf birth weight. (Depending on breeding goal moderate EBV's are more favourable)
4. **200 days (kg):** Live weight at 200 days of age (Higher EBV's are more favourable)
5. **400 days (kg):** Live weight at 400 days of age (Higher EBV's are more favourable)
6. **600 days (kg):** Live weight at 600 days of age (Higher EBV's are more favourable)
7. **Mature Cow Weight (kg):** Estimates of genetic differences in cow weight at 5 years of age (Smaller, or moderate EBVs are generally more acceptable for reducing herd maintenance cost)
8. **Milk (kg):** Milk production and mothering ability expressed as 200-day weight of daughters' calves. (Moderate, positive EBVs are more favourable)
9. **Days to Calving (days):** Indication of female fertility. Expressed as the number of days from the start of the breeding season until calving. (Lower EBVs are more acceptable)
10. **Scrotum Size (cm):** Scrotum circumference (Larger, more positive EBVs are more favourable for fertility)
11. **Eye Muscle Area (cm):** Eye muscle area at the rib site, adjusted to a 300kg carcass. (Larger, more favourable EBVs are preferred – more favourable for meat yield)
12. **Intra-muscular fat percentage (%):** Percentage of intra-muscular fat (marbling) in a 300kg carcass. (Emphasis of this trait will depend on market requirements. In general larger, more positive values are more favourable)
13. **Retail Beef Yield Percentage (%):** Retail beef yield from a 300kg carcass. (Higher, positive values are more favourable)
14. **Simmentaler Breeders Index (Rands):** Estimates the genetic differences between animals in net profitability per cow joined in an example self-replacing purebred Simmentaler herd. A portion of the heifers are retained for breeding and so maternal traits are of importance. This index assumes steers and surplus heifers will be finished in a feedlot for 160 to 180 days and weigh 480 to 555kg when marketed at 13 to 14 months of age.
15. **Simmentaler Profit Index (Rands):** Estimates the genetic differences between animals in net profitability per cow joined for an example crossbred self-replacing using Simmentaler bulls over *Bos indicus* content cross females. A portion of the heifers are retained for breeding and so maternal traits are of importance. This index assumes steers and surplus heifers will be finished in a feedlot for 140 to 160 days and weigh 420 to 490kg when marketed at 12 to 13 months of age.

# SERVICE EXCELLENCE

At BKB we value the importance of trust. Trusting that the rains will return and that the land will produce for those who nurture it. Knowing that trust cannot be bought, but rather earned over time through our actions and our commitment to you, through the good times and bad. We take pride in the relationships we have built with generations of clients, each underpinned by integrity and bound through a look in the eye and the shake of a hand.
